At Howard Brown Health, we believe that access to affirming healthcare is a fundamental human right. No matter your economic status, sexual identity, ability, gender expression, race, or religion, Howard Brown promises to deliver high-quality, affordable healthcare and be a safe space for LGBTQ individuals, their families, and allies.

Howard Brown designs innovative programs to improve our patients' and clients' quality of life. Generous community support and forward-thinking medical professionals help to intentionally meet the needs of our diverse community.

Many of our patients avoided going to the doctor for years, even with serious medical conditions. They feared interacting with medical staff who were unable or unwilling to understand their concerns, they visited offices where their identities were not respected, or they worried the costs would be too high.

As patients at Howard Brown, they have found an affordable medical home where they are respected, valued, and heard.

GIVING TO HOWARD BROWN

- ✓ helps cover \$5.5 million annually in uncompensated care for uninsured patients
- ✓ supports critical programs like HIV prevention, education and outreach, and HIV treatment through the Same Day Start program
- ✓ eliminates disparities in healthcare by investing in education, research, and advocacy
- ✓ provides wraparound services for young people, trans and gender nonconforming patients, and seniors including legal assistance, meals, insurance navigation, housing assistance, education, and employment services
