

SEEKING BISEXUAL MEN FOR RESEARCH STUDY

APPROVED

DATE: 04/17/2019

UNIVERSITY OF ILLINOIS AT CHICAGO
INSTITUTIONAL REVIEW BOARD

The purpose of the Men's Daily Experiences Study (MeDES) is to investigate the ways that different experiences of daily living – particularly every day stressors – influence the health and well-being of men.

We are seeking bisexual-identified men to participate in an online study about their daily experiences and mood. Participants will be asked to complete a brief online survey every day for 28 days as well as a short baseline and post-study survey.

Eligible participants will be:
25 years of age or older
Bi+ men (cisgender or transgender)
Located in the U.S.
Able to access the internet on a daily basis

Take the screening survey at mens-estudy.tumblr.com to find out if you are eligible to participate!

Eligible participants will be compensated (up to \$60) for participating!

Dr. Wendy Bostwick
and Dr. Brian Dodge
